

# cardiofax<sup>®</sup>

Electrocardiograph  
ECG-1150

cardiofax continues to evolve

*Fighting Disease with Electronics*

 **NIHON KOHDEN**

# *Simple operation and*

## **Compact and lightweight: 1.5kg\* and 50 mm thick**

The lightweight body guarantees stress-free mobility and the compact size fits anywhere in the clinic or hospital.

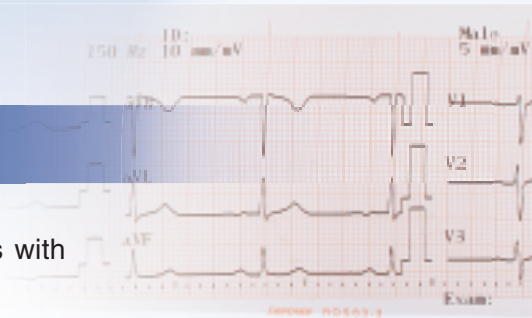

\*Weight not including battery and recording paper

## **Full 12-lead ECG display**

A large 4.8-inch backlit LCD screen shows all 12-lead traces at the same time. In addition to easier waveform viewing, this helps you save recording paper by confirming the recording integrity of all leads before starting recording.

## **Highly reliable 12-lead ECG analysis**

ECG-1150 includes Nihon Kohden's ECAPS12C interpretation program. ECAPS12C provides simultaneous 12-lead ECG acquisition and analysis with approximately 200 findings and 5 judgements.

## **ECG data management**

Up to 40 ECG files can be stored in the internal memory.

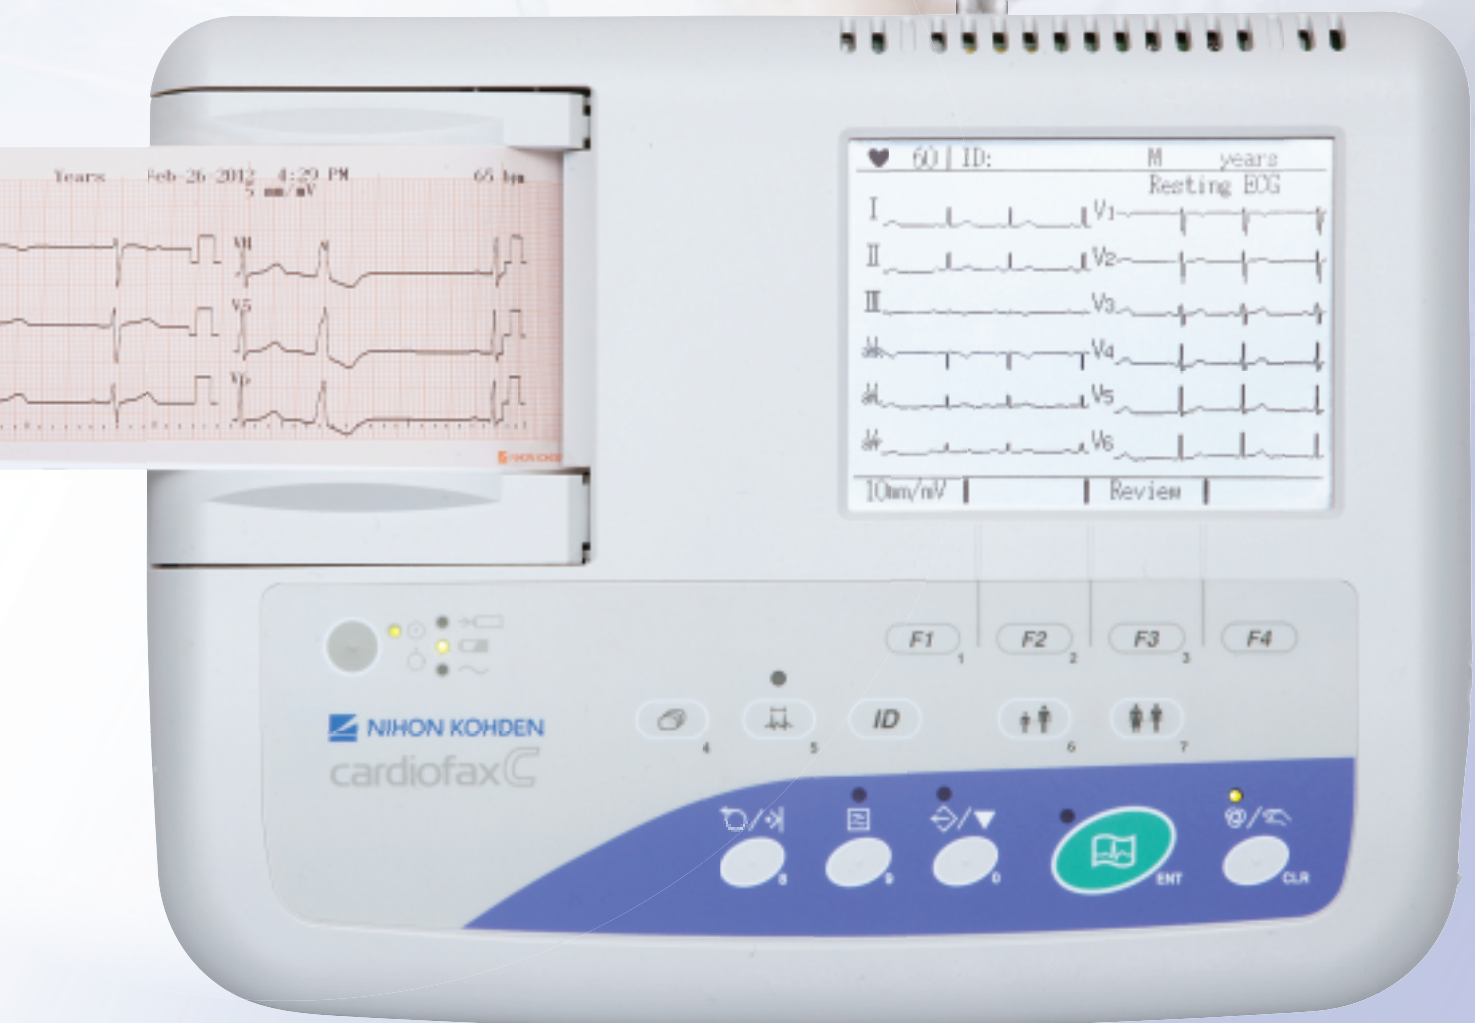

Approximately 3,000 ECG files can be stored on a 64MB SD card.

With the SD card, you can review and print the stored ECG files.

## **AC and battery operation**

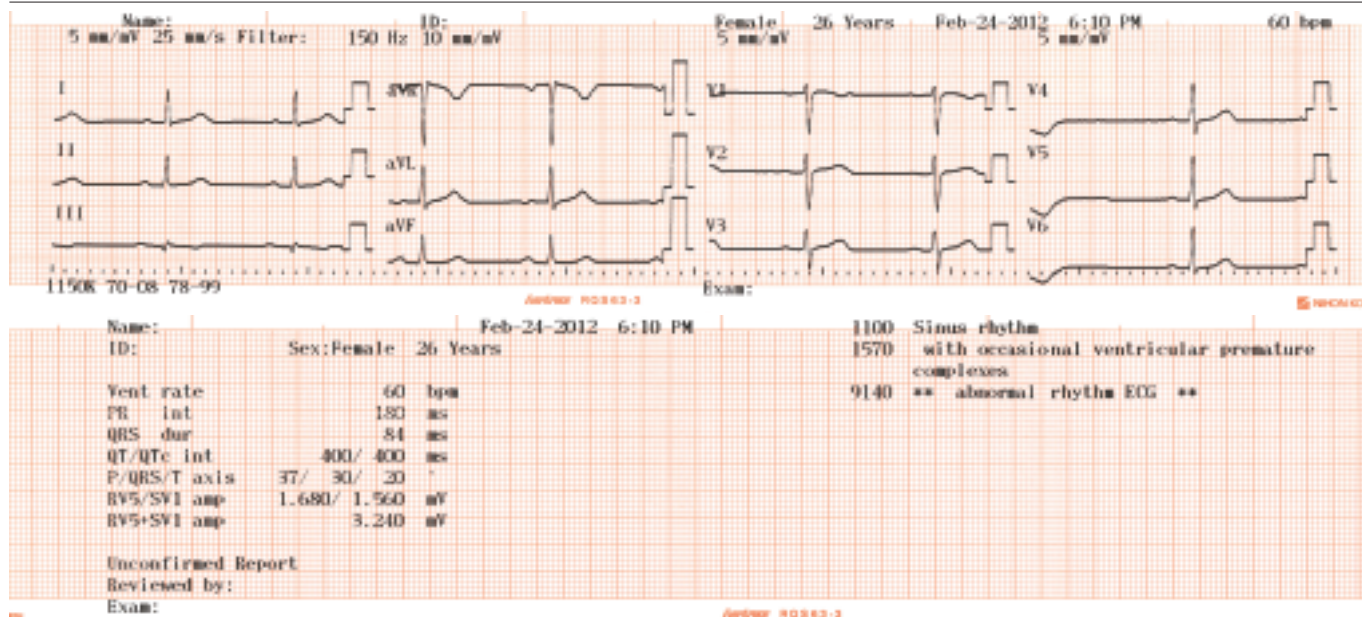

A rechargeable and ecological NiMH battery provides more than 120 minutes of measurement and recording.

# *intelligent analysis*

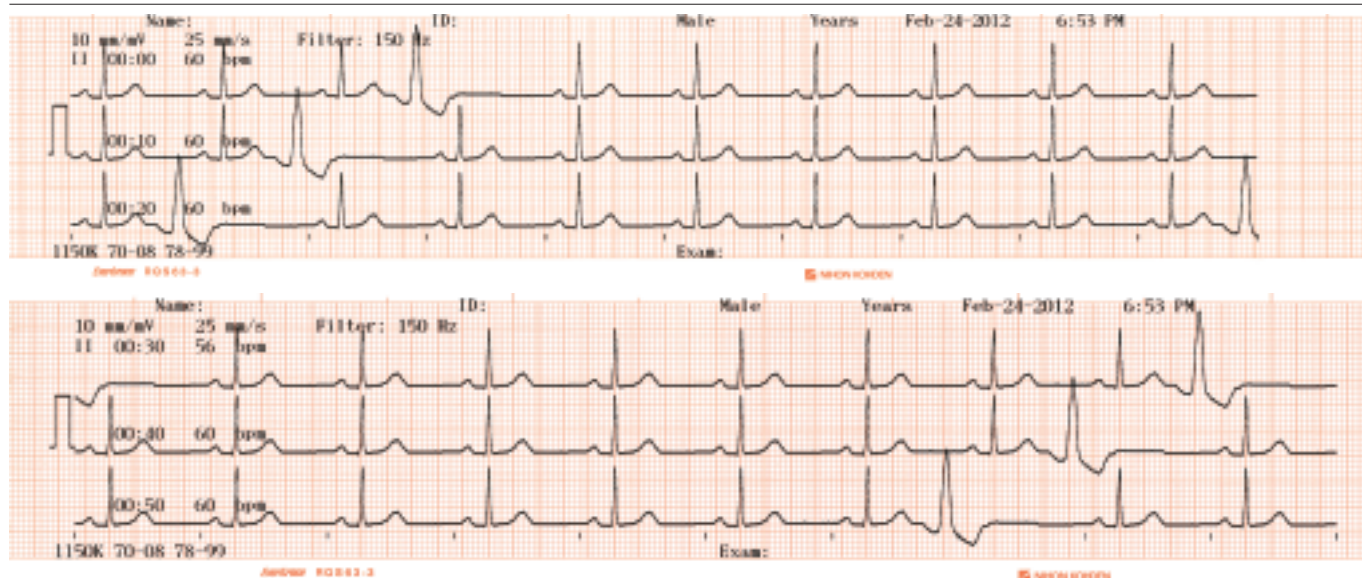

## Recording Examples

### 12 lead ECG (3 traces × 4 groups) with analysis results

### 1 channel rhythm recording

## Options

Battery

Cart

Patient cable hanger

63 mm recording paper

SD card
